The development of this report was supported by a grant awarded to the American Public Human Services Association (APHSA) jointly by the Administration for Children and Families (ACF) and the Administration on Aging (AoA) of the U.S. Department of Health and Human Services. The grant was a supplement to APHSA's existing cooperative agreement (Grant No. 90-AM-0660) awarded by AoA to create the National Center on Elder Abuse (NCEA). APHSA is the lead agency for NCEA. The views expressed in this report are those of the authors and do not necessarily reflect the policies or views of the grantee organization, its subcontractor (Westat, Inc.), or the funding agencies.
